STALKER BASIC

■ COMPLETELY PORTABLE, CORDLESS OPERATION

■ FIELD REPLACEABLE RECHARGEABLE BATTERIES

■ OPERATE AND CHARGE FROM VEHICLE'S CIGAR OUTLET

■ RECHARGE FROM A WALL OUTLET

■ AVAILABLE INTELLIGENT RAPID CHARGER STAND

Advanced Technology. Basic Operation.

We know that department budgets sometimes limit your ability to purchase our most sophisticated products... which is why we have redesigned the Stalker BASIC. Starting with original digital technology from the ATR, and advanced with today's latest technology, the Stalker BASIC combines the most popular features and legendary Stalker performance, all at a very affordable price.

Three Window Backlit LCD Display

The three window display features a dedicated display for "Locked" targets. This provides the ability to lock a target, while continuing to track its speed in the main target window. A four character alpha-numeric display area shows operational settings, modes, charging indicator and any error messages. The keypad is backlit for easy nighttime operation.

Cordless Battery & Charging System

The battery and charging system provide the most flexible power and charging operation of any police radar. A Ni-MH battery pack slides into the handle to provide up to 8 hours of triggered operation between charges. A spare battery pack can be popped into the handle in just seconds. The batteries can be charged both in and out of the radar gun body. The included cigar plug power cord can power the radar gun from a 12-volt accessory outlet, while simultaneously charging the battery. A stand alone Smart Charging platform is also available to charge the battery pack from an AC outlet with both trickle and rapid charge settings. There is also an AC adaptor that can both charge the batteries and power the BASIC while plugged into an AC outlet.

Both Moving & Stationary Versions

- Advanced Digital Signal Processing
- Removable NiMH Batteries
- Backlighting 3-Window LCD Display
- 4-Character Alpha Numeric Display
- 5-Key Backlighting Control Panel
- Trigger Actuated Transmitting
- Automatic Self Test
- Adjustable Sensitivity (Range)
- Adjustable Doppler Audio
- Lock Release Functions
- Backlight Key
- Software Controlled and Upgradable
- Detachable Cigar Power Plug / DC Charger
- AC Battery Charger

Moving Versions Also Include

- Switchable Moving / Stationary Modes
- Infrared Cordless Remote Control
- 5/20 MPH Lowest Patrol Speed Cutoffs
- Patrol Speed Blanking
- Patrol Speed Reacquire Function
- Continuous or Trigger Activated Transmitting
- Quick Release Dash Bracket

Upgrade to moving version

For an additional charge, the stationary version can be upgraded to a moving version. Call for details.

Ideal for Motorcycle Use

The Stalker Basic is the preferred hand-held unit for motorcycle patrol units across the nation. Utilizing the Stalker Basic shock mount, the unit attaches safely and securely to the motorcycle.
